**Taxon Name:** *Dinarolacerta mosorensis* (Kolombatović, 1886)

**Synonym(s):**
- *Lacerta mosorensis*

**Common Name(s):**
- English: Mosor Rock Lizard

**Taxonomic Notes:**
The isolated eastern subpopulation in Montenegro has been proposed as a separate species (Ljubisavljevic et al. 2007).

**Assessment Information**

- **Red List Category & Criteria:** Vulnerable B2ab(iii) ver 3.1
- **Year Published:** 2009
- **Date Assessed:** December 14, 2008
- **Justification:**
  Listed as Vulnerable because its area of occupancy is less than 2,000 km², its distribution is severely fragmented, and the extent and quality of its habitat are declining.

**Previously Published Red List Assessments**
2006 – Vulnerable (VU)

**Geographic Range**

**Range Description:**
This species is found in the southwestern Dinaric mountain range of southern coastal Croatia, southern Bosnia-Herzegovina and Montenegro. It may be present in northern Albania but further surveys are needed to confirm this. It occurs from 450 to 1,900 m asl.

**Country Occurrence:**
- **Native:** Bosnia and Herzegovina; Croatia; Montenegro
Dinarolacerta mosorensis

Range

- Extant (resident)

Population
It is not a common species and has a patchy distribution.
Current Population Trend: Decreasing

Habitat and Ecology (see Appendix for additional information)
It is largely found in humid, rocky, montane areas of exposed karst. The species inhabits open woodland and sites with a rich vegetation cover. The females lay a single clutch of four to eight eggs.

Systems: Terrestrial

Threats (see Appendix for additional information)
It is threatened by the loss of suitable habitat due to logging, including within protected areas. Collection of animals for the pet-trade was a threat in the past. It is likely that some small-scale illegal trade continues.

Conservation Actions (see Appendix for additional information)
It is listed on Annex III of the Bern Convention and is protected by national legislation in some range countries. It is present in a number of protected areas.
